# Ryan International

## EXPONENTIAL GROWTH

In today's world there are endless opportunities for individuals to shape up a valuable future. However to grab these chances one ought to harness oneself with extraordinary qualities and unique vision. The people of this competitive era struggle to rise and adopt distinct paths to be more worthy of a higher status. Among those paths, Education remains the most lucrative way in the construction of a sophisticated individual who is confident, creative, reasonable and most importantly a humanitarian.

A vision which dreamt of a world

where youngsters are able to learn from their past, work for the present and take important decisions for the future generation enkindled Dr. A. F. Pinto's desire of creating world-class institutions in India and abroad. Thus, he laid the foundation of the first school of Ryan Group nearly four decades ago in the financial hub of India, Mumbai.

Along with Mrs. Grace Pinto, he progressed with the ambition of transforming their single school into a

chain of leading institutions. They did not limit themselves to a single nation and enhanced their presence across international boundaries. At present, there are more than 128 branches of Ryan Group worldwide. The schools are coeducational and are affiliated to Central Board of Secondary Education (CBSE), Indian Certificate of Secondary Education (ICSE/ISC) and State Boards and even international boards offering the IB (International Baccalaureate) & IGCSE (Cambridge) curricula.

**URBANIZED INFRASTRUCTURE**

At Ryan institutions, students get all kinds of top-notch facilities. The institutions' infrastructure is fully equipped and modernized. From academic facilities to sports activities, the institutions house it all. Consequently, students actively participate and excel in various indoor and outdoor games at district, state, national and international levels.

The spacious school campus has large auditoriums, sports ground, well-furnished technology enabled class rooms, healthy canteen, medical facility, well-organized libraries and laboratories as well. With all these amenities, the schools make sure that the students are not deprived of any infrastructural resources. To ensure the safety and security of their students, the schools also provide transportation system.

**GENERATING GOLDEN FUTURE**

Ryan international schools make sure that their students experience diverse co-curricular activities that will transform them into a confident, informed, inspired and a better person who can tackle the challenges that life and society throws at them. The schools are also aiming at international games such as Commonwealth games and Asian games by guiding their diverse sports teams. In addition, several activities related to art and craft are regularly organized in the school premises to inspire entrepreneurship among children.

In order to create beautiful and fruitful moments in their students' life, they organize various national and international events. Most notable among them are- NASA educational programme, Teen Camps and the T.V. news presentation courses. BBN i.e., Beyond Breaking News course is one of the most exciting initiatives of Ryan Group which enables the students to

excel in media industry. The students get the opportunity to display their media skills in a program called Young Jourknows which is telecasted on Topper TV.

Ryan Group wraps up its vision in words "Excellence in Education and All-Round Development" but believes that this larger than life picture of their vision cannot be expressed in words but in the actions which will follow the successful consequences.

Expressing his views, the founder and Chairman, Dr. A. F. Pinto says, "A nation will be known by its people and the people will be known by their education and their culture." By establishing this wonderful group of institutions, Dr. Pinto has definitely made a lasting impact in the segment of education where thousands of children are blessed to receive high quality value blended holistic education.
